

## Who We Are...?

Jesse Fleming started his first painting career working for Dave Scott, former owner, back in the year 2000. After him and his wife, Nicole, got married in 2001, they moved back to Minnesota where he started his own painting company, Fleming Painting, LLC.

He primarily focused his talents on commercial properties such as ING, Voya, Walden University, and Steiner Development Inc. He also worked for several property management companies and even was hired by the Minneapolis F.B.I. to paint some of the special high security projects.

After Nicole completed her Doctorate in Health Psychology and she received an offer to work at a large hospital in Northern Minnesota, Jesse followed along and was able to start focusing his painting career on historic homes in the famous Congdon neighborhood.

With brutal winters off Lake Superior and a strong desire to return to the beloved mountains in Colorado and the charm of Fort Collins, they moved “home” with their son in late 2018.

As everything has come full circle, and with Dave Scott knowing that he would be leaving his 41-year old business in the hands of a reliable, skilled, and trustworthy painter, Jesse became owner of Precision Painting Specialties on Sept. 1<sup>st</sup>, 2020.
